I. OPEN BUSINESS

1. Waterline

DISCUSSION

Ken briefly discussed the history of the waterline. He discussed the reason for this meeting is to inform the residents that we would be no longer collecting a hook-up fee in the future. He said that usually the life of this type of project is 10-15 yrs. Ken informed the residents that most of the original residents have been paid down to around \$1000.00. At this time Aqua is not charging anything to connect to their waterline. This can change in the future if they decide to do so.

- a)** Nick Wayman (former trustee) discussed how the waterline was set up initially. Nick discussed how payments were made back to the residents as they tied on. He also discussed the different opinions of the different prosecutors that he dealt with.
A resident asked how many residents are on the waterline – Nick said 88
- b)** Ken (trustee) said all the waterline customers were sent a letter. We have been informed that we could just end collecting a fee but the trustees wanted to give the residents a chance to voice their opinion.
- c)** Larry Deak (resident) discussed the increase in fees from the water company. He also asked the trustees to contact the water company regarding the water pressure being low.
- d)** Residents discussed the need for a filter on your water also
There was brief discussion on a gas line for Sheffield Twp.
There was brief discussion on recycling

All the residents attending the meeting are in agreement for discontinuing collecting a hook-up fee.

Ken thanked the residents for their support
